PCE OKEH DISAVOWED BY JABUSCH, KUYKENDALL

Two candidates for the La Mesa-Spring Valley Apr. 20 school board elections, Fred M. Jabusch and Hardy G. Kuykendall, said that they have not sought endorsement by the Parents' Committee on Education.

They released the following joint statement:

"We understand that the Parent's Committee on Education endorsed us as candidates. Inasmuch as we are not in any way connected with the P.C.E., we feel it is imperative that we point out that (1) We were never interviewed by this group, (2) We were never requested to speak before them, and (3) We did not agree to the endorsement of P.C.E.

"We realize that a candidate is not in the position to select each and every one of those who support him, but in all honesty to the parents and citizens, we feel we should make it clear that we did appear and have agreed to the support of our individual candidacies by the Citizens for Responsible School trustees."

Lie Detector Finds Club Man 'Not Guilty'

Sheriff's Sgt. Kenneth Haney, polygraph expert, used lie-detector equipment Friday to demonstrate its dependability Friday at the Lemon Grove Men's Club.

Using one of the club members as "suspect" for the demonstration, he showed that the defendant "responded very well" during the test but declined to report whether the man told the whole truth.

Sgt. Haney said that the "lie-detector" is now used in evidence in many trials although people generally believe that such evidence is not legally admissible.

It is particularly useful in paternity cases where both parties agree to submit to the polygraph examination, and where the court orders such evidence brought in following mutual agreement. It was used last week in the beating-death of the north county infant.

The program this week will be supplied by a Lemon Grove inventor, Horace McCracken, who has developed a solar condenser for converting sea water to fresh. He will demonstrate his device at the club, according to Chuck Buckles, program chairman of the club.

John Dail, past president of the club who had been hospitalized, came back to the club Friday for the first time in several months. The club awarded him a plaque for president during 1964.

The meetings of the club are open to interested men. Meetings are held every Friday at noon at Michael's at a no-host luncheon.

County Business Gains 24% From '58 TO '64

WASHINGTON D. C. (Spcl)-The U. S. Department of Commerce's report on 1963 retail trade in San Diego County showed a 24 per cent increase business since 1958.

The information was prepared by a Census Bureau elec- at the rate of 10 lines per second.

The report, the Department said, was prepared especially for this newspaper.

The County's 7,891 retail establisments had $1,408 million in sales in 1963, an increase of 24 per cent from 1958.

The last previous business census conducted by the Census Bureau, an agency of the U. S. Department of Commerce, was in 1958.

Retail trade in the county meant jobs (exclusive of proprietors) for 47,794 men and women and a yearly payrool of $177.7 million.

In volume of business the county's food stores had sales of $295.0 million, an increase of 10 percent from 1958. In other retail business—the county's eating and drinking places had sales of $116.6 million, and gasoline service stations had sales of $105.2 million. Auto dealers and related retail trade establishments had sales of $278.2 million; general merchandise group stores had sales of $229.8 million; and lumber, building materials, hardware and farm equipment dealers had sales of $57.7 million.

For the state as a whole, the Census Bureau reported 144,372 retail establishments with sales of $26888.6 million, up 35 percent from 1958.

Census reports to be issued during the next few months will give state and county figures on wholesale and service trades, manufacturing and mineral industries.

Figures on number of establishments and sales volume for major types of retail establishments in each county are provided in the printed report: 1963 Census of Business, Retail Trade, California, available at $.75 from Superintendent of Documents, Washington, D. C. 20402 and at U. S. Department of Commerce field offices.

They May Call Mills For Governor

When Assemblyman James Mills, a Democrat, took a firm stand against the transfer of state funds from one budget to another, it shook into the open some revelations that had not been on the surface before.

First, it told that state funds are unconscionably shifted about to serve the best interests of politicos presently in power.

It also said that there is a big crevasse in the state Democratic party. Even bigger than the one the Republicans are trying to heal in their own group.

By the make-up of the quarrel, it appears that Assemblyman James Mills is espousing the cause of Assembly Speaker Jesse Unruh. It has been no hidden secret that Assemblyman Unruh has had his eye on the governor's chair for a year or more.

It was believed that President Johnson might give Governor Brown the call for a high judgeship, or an ambassadorship. In such a case the governor's job might go up for grabs among the Demos. Assemblyman Unruh, by his keen political perception and his imaginative acts, has put himself in the position to be dealt with in case the governorship is opened.

It may have been that Unruh had grown restive when the job opportunity didn't materialize. It is conceivable that he tipped Assemblyman Mills off on the funds shift in order to consolidate a Demo group behind him on an issue of fiscal integrity.

Then came the surprising election of former El Cajon newspaper publisher Simon Casady as head of the California Democratic Council. Whatever machinery was set in motion to make this election possible, it brought with it Casady's and the CDC's avowed support of Gov. Brown.

Casady, a handy man with a biting phrase, said that "Jesse Unruh couldn't win a statewide election even if he were running uncontested."

We're sure that neither Gov. Brown nor Casady believe that. Politicians at that level don't take each other on in bitter battle unless there is a need for it.

Regardless of who else is involved in the top state job caper, it looks as though Assemblyman Jim Mills is coming off best right now.

He stood up against party leaders and let his courage and integrity come through. He did not back away when the reaction set in. He thus added to his growing formidible stature in this battle of the bulls.

It may very well be that Assemblyman Mills may have attracted the moderate elements of both the GOPs and the Demos and may emerge as a top candidate himself for the governorship.

Area Hit By 'Nazism,' BBs Fire, Theft

Racism, vandalism, fire, explosion and the theft of a wide range of objects, mostly low in value, figured in the reports at Sheriff's office this week.

ANTI-NEGRO PROPAGANDA was reported left at the residence of Claude Davis, Jr., custodian, of 1654 Watwood, Lemon Grove, Saturday, some of it bearing the words, "AMERICAN NAZI PARTY" and "by Lincoln Rockwell." The lengthy assortment of invective included a swastika; some warned, "LEAVE LEMON GROVE — YOU'RE NOT WELCOME HERE" and was written in hand-lettered print, reports at the police unit show. Some of the stuff, part of which was posted on Davis' garage door, bore marks of professional printing work, the investigation summary indicated. "America for Whites-Africa for Blacks" ran the Selma-like theme.

INVESTIGATION CONTINUED in a five to six thousand dollar fire following a drinking party in his unused building, C. L. Whitehead, 4124 Bancroft st., Spring Valley, reported to sheriff's deputies. Evidence showed that the dwelling was entered on the NW side after a screen was cut.

CROOKS APPARENTLY ripped off the screen and crawled in a window to the residence of Clarence L. Milne, 2165 Helix, Spring Valley, recently in his absence to steal a TV and a stero set - the instruments all wrapped (police theorized,) in Milne's pink blanket and bedspread, also missing. Total value was placed at about $300. There are no local suspects, officers said.

BB PELLETS, possibly fired from a moving vehicle or vehicles wreaked $510 in mostly car window damages in the area of the Kresge Store in Grossmont Shopping Center last Wednesday and next evening alerted Lt. Richard M. Cirami of 3418 Fairway, Lemon Grove, when it was surmised, someone fired in front of his residence while driving by. Eleven cars were hit at the Center. It was only weekend before last that William Mc Grath, special agent, communications, Pacific Telephone and Telegraph Co., who resides at 1809 La Corta st., Lemon Grove, reported BB shots hit the left front window of his company-assigned vehicle.

THREE ORANGES were thrown at the start of the weekend at a LEMON GROVE build-

District Switch Delayed By County Supervisors

SAN DIEGO (CNA)—Supervisor Henry A. Boney, second district, Tuesday failed to get National City and all Sweetwater voting precincts switched from his district to the fourth district represented by DeGraff Austin, but it was lack of time rather than opposition from other board members that caused the failure.

Boney lost every precinct in National City at the Nov. 3 election to David W. Bird of National City although defeating the long-time supervisor in a close election. The vote was about 6,000 to 3,000 in the bay city.

Boney ran strongly in La Mesa and Mt. Helix precinct where he lives.

Austin said that he had talked to Boney about National City but that he had known nothing about the Sweetwater precincts until noon on Monday. He said the board should sit down and study the whole situation and said there are a number of ways that changes could be made.

Incumbents Re-Seated In La Presa Water Race

Approximately 800 voters of the La Presa County Water District, on Tuesday, went to the polls and voted the three board members back into office. Here is the unofficial count for the three incumbents:

Verne C. Watts, 504; Donald M. Walker, 497, and Deane A. Russell, 481. Three others opposing the incumbents were Donald E. Shepardson, who received 310 votes; Thomas Martinez, receiving 303 votes; and Lawrence J. Bailey, who totaled 301 votes.

The three incumbents, following the election, said they were gratified with the support they had received. They said it was a good election and were pleased with the results.

RETARDED KIDS AIDED

Joseph H. Famme, Vice President of General Dynamics/Convair, in charge of the Aircraft Programs has accepted the General Chairmanship of the $1.5 million Building Fund Drive for the construction of the Home Of Guiding Hands, a residential facility for retarded children in San Diego.

L.G. Trustees Want Two-District School Setup

Lemon Grove Elementary school board trustees Warren Buckner and Bob Sjogren reported Monday night on their trip to Sacramento where they went to encourage a two-district setup instead of a single district in the east county.

They reported that the one-district system is not popular. Out of 29 unification elections, since Sept., 1964, 24 failed, they learned. The Unruh Act requires elementary districts to attempt to unify in the boundaries of the high school district.

School Superintendent Byron Netzley reported that National Defense Education Act funds are being made available here on a fifty-fifty basis to provide improved equipment and teaching techniques in geography, Spanish and English.

Proceeds go to charities for Kiwanis youth activities such as Lemon Grove Kids' Day; Pony League sponsorship; Sixth grade camp contributions; State college scholarships; contributions for junior high choir robes and finanical aid for the band; and assistance to foreign exchange students. Tickets can be purchased from all members of Kiwanis, youth groups at Palm and the Lemon Grove Junior High schools and Key Club members. On the day of worship, let your soul be opened toward God in song and praise. Let your soul also be opened to receive the dew from Heaven and let each drop reflect the beauty of the Lord.

DR. BRIGHT ASKS FOR STRONG LAY MINISTRY HERE

The Rev. Oral C. Butcher of the Skyline Wesleyan Methodist church of Lemon Grove said, "This is what we need," to Dr. Bright who spoke at the Brooklyn Heights Presyterian Church to 130 pastors and laymen to explain the features of the San Diego Lay Institute of Evangelism planned for April 4-10 at the First Presbyterian church of San Diego.

The men gathered for an early breakfast Wednesday, March 10, Rev. Butcher is chairman of the Pastor's Committee representing well over 100 churches cooperating in this institute. Dr. Bright will be the main speaker.

Dr. Bright explained, "This training is unique in training businessmen and women. It is not like anything churches have seen before. One retired vice-president of the Chase Manhattan bank and his fellow church-members participated in this training and in the last two years through them approximately 700 have come into a vital relationship with God through Christ. His church has received national recognition."

Saul's Conversion Is Church Subject

The conversion and baptism of Saul of Tarsus, as told in the Acts of the Apostles, plays an important part in the Bible Lesson on "Reality" which will be heard at Christian Science churches Sunday.

Also included will be these lines from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (pp. 324-5): "When the truth first appeared to him in Science, Paul was made blind and his blindness was felt; but spiritual light soon enabled him to follow the example and teachings of Jesus, healing the sick and preaching Christianity throughout Asia Minor, Greece, and even in imperial Rome... He who has the true idea of good loses all sense of evil, and by reason of this is being ushered into the undying realities of Spirit."

"THE CROSS"

The destiny for which God has created us is the Kingdom of God. On our way into that Kingdom, we cannot circumvent the cross either. The only entrance into the Kingdom of God is by the Cross. Every person who is going to reach heaven must acknowledge his sins and acknowledge the fact that Christ died on the cross for those sins.

Drug Arrests Skyrocket Says Attorney General

LOS ANGELES (Spcl)- A new California high in both adult and juvenile drug arrests occurred in 1964, Attorney Gen. Thomas C. Lynch announced.

The attorney general released the preliminary statistics on 1964 drug arrests prepared by his Bureau of Criminal Statistics.

During 1964, there were 18,182 adult drug arrests and 1,930 juvenile arrests. These represented a 13.2 percent rise over 1963 for adults and a 35.2 percent rise for juveniles.

Highest single rise was in the juvenile marijuana arrest category which showed a 101 percent increase over last year, from 503 to 1,011. Eighty-one percent of these juvenile arrests occurred in Los Angeles county.

"These figures prove how critical our drug problem still is in California," the Attorney General said. "They also indicate the need for up-dating our current laws along the lines now proposed by our office to the State Legislature."

Dangerous drug arrests ranked second only to marijuana offenses for both adults and juveniles during 1964, according to the report. There were 6,037 adult arrests involving marijuana and 4,102 arrests for dangerous drug violations.

These arrests represent a 29.1 percent rise in adult marijuana violations.

Over-all, 11,411 arrests occurred in Los Angeles County, about 62 percent of the state's total.

For the first time since 1962's Robinson case in which the U. S. Supreme Court said addiction was not a crime, arrests for narcotics usage showed an increase — 19.3 percent over 1963.

LM-SV School Budget May Top $7 Million

The La Mesa-Spring Valley School Dist. board of trustees, Monday night had a look at the proposed budget for the 1965-66 school term, amounting to $7,217,034. The figures showed an increase of $312,412 over this year's budget (1964-65), but only about half of that of last year.

The increase, according to Glenn Murdock, district superintendent, is due primarily to teachers salaries. But other expenditures, Murdock pointed out, are the same or even lower than last year.

Dr. M. Ted Dixon, business manager for the district, said there is to be an increase of nearly 500 students next year in the district, or about 3.6 percent, making a total of 14,385 for the 19 schools. He said the budget increase would boost the tax rate of 6.9 percent in this district to $2.43 per $100 assessed valuation. The 1965-66 preliminary budget includes expenditures to the amount of $6,955,185. against $6,537,049 for the 1964-65 term. The rest of the budget will be in reserves, Dixon said.

Children say some pretty cute things. Here's one I think you'll enjoy as much as I did. A 2½-year-old girl wanted to talk long distance with her grandma. So she took her mother by the hand, led her to the phone, put her fingers on the dial and said, "You wind it, and I'll talk." I guess we're never too young to know how much fun it is to keep in touch by long distance.

• • •

Speaking of long distance, here's what to do if you should ever dial a wrong number out of town. Just ask the person you reach for the name of his city. Then let the operator know right away. She'll make sure you're not charged for the call.

• • •

Filed your income tax return yet? If not and you have any question, the Internal Revenue Service advises that you can get the answer by phone. If there's an IRS office near you, you'll find their number listed in your phone book under the heading: "United States Government Treasury Department." Call them. They'll be glad to help.

Miguel Represented In Model U.N. At S.D. State

Nineteen Mount Miguel High school students will attend the Model United Nations at San Diego State College scheduled for March 26-27, where Lt. Gov. Glen M. Anderson is to give the keynote address Saturday.

These students will be representing three countries from which their exchange students have come: Brazil, Malaysia and Turkey. They are familar with these lands from talking with the foreign students, researching the geography, climate, industry and agriculture of each land in libraries and listening to the news for political and economic problems in each area.

Malaysian representatives are John Bryant, Sue Bookbinder, Karla Melrose, Pat Ela, Linda Arthur, Kathy Neal and Priscilla Mortan. Last year's girl exchange student, Lee Nhu Nhu was at Miguel when her country federated under Abdul Rahman to form Malaysia.

In 1962, Somnez Ozerek was Miguel's Turkish student. His country delegates are Tom Tomlinson, Karen Sjogren, Charles La Gamma, Jim Kirby, Ron Mohling and Fred Grunaldi.

This year, Brazilian Sue Serpa, Miguel's current AFS student, was, under the plan, a guest in the home of Tempy Corneluis of 7531 Davidson ave., Lemon Grove. After a recent American field service assembly where she told about her country, students have talked to her about Brazil and its problems. Brazil's delegate to the Model United Nations will be Susan Foster, Sue Serpa, Jean Gustafson, Sonia Fargersten, Tom Collier and Bill Barton.

SOLAR STILL — Horace McCracken displays one of his solar stills which turns salt water into pure drinking water. The sun heats water in the trays enclosed under glass. The pure water produced by the system is collected in the tank and is stored for use. The water stills are produced by Jet Solar Systems of Lemon Grove. McCracken is to be guest speaker of the Lemon Grove Men's Club at noon Friday.

Man Cheaply Gets Pure H20 From Sea

Horace McCracken lets the sun do the work for him in his system of turning salt water into pure drinking water.

McCracken, 42, of Jet Solar Systems of Lemon Grove, has been working on the system of producing pure water since 1959. Models of his solar still have been in use since 1961.

McCracken said, "Anybody who buys water in jugs or tanks or hauls water by truck can probably get it cheaper by using a solar still."

The still is a system of trays enclosed under glass. The sun shining through the glass heats the water. The warm water produces pure water vapor which condenses on the inside of the glass and runs into a collection trough. The salts and minerals are left behind in the trays, to be flushed out automatically in the process of feeding.

For three years McCracken was an engineering aid at the University of California at Berkely. During this period he worked full-time at solar distillation experiments.

The Lemon Grove-made stills pay for themselves within two or three years, McCracken said.

The system has no moving parts and uses no energy but heat from the sun.

McCracken said the still would normally be installed on roof tops but they can be installed in back yards.

"If you have or would like to have a trailer or cottage in one of the beautiful spots along the Mexican coast, you can use a Jet Solar Still and be independent for your water, feeding the still from sea water," McCracken said.

The stills sell for between $60 and $250.

McCracken attended a Solar Energy Society meeting this month in Phoenix where he delivered a paper on "Solar Still Pans: The Search for Inexpensive and Durable Materials."

Counsel Says School Groups Must Give Info

SAN DIEGO (CNA) — The county counsel's office has delivered the opinion that school boards can require employe organizations to reveal the number of members of the organization that are employes of the district.

Frank Asaro, deputy county counsel, wrote in the opinion that the boards can require, as a reasonable rule or regulation, that the groups disclose not only the numbers but also the names of the member employes.

The opinion was written at the request of the Grosmont High School District Board of Trustee and although the American Federation of Teachers is not mentioned it is a fact that the the teachers' union has consistently been against revealing its list of membership.

The union has its locals in South Bay, Oceanside, San Diego as well as Grossmont and other east county districts.

Asaro said that the rule is valid as long as the information is not used for discriminatory purposes. He said that the one means of ascertaining that the organization does in fact represent the employes of the district is to require the names and number of employes who are members be furnished the district.

He noted that the Grossmont rule requires only the number and not the names but said that as a practical matter, it appears that giving the names is the only method by which the number could be ascertained. He said that the district could require the information in order to assess the weight to be given to an organization's representation.
